

Alluring Homes

The magnificent Le Nouvel KLCC in Kuala Lumpur is an irresistible residential proposition

When it comes to luxury home properties, a prestigious address, investment value, renowned architects and designers, as well as state-of-the-art amenities matter. The new Le Nouvel KLCC, a luxurious development by Wing Tai Asia, is one project in Kuala Lumpur, Malaysia that boasts all of the above.

Mirroring the grandeur of the KLCC Towers, Le Nouvel KLCC is located on Jalan Ampang—right opposite KLCC that's less than a minute's walk away. As the most sought-after address in the city's business and lifestyle district, the property is close to high-end shopping centres, 5-star hotels and corporate offices.

Designed by renowned architect and Pritzker Prize winner Jean Nouvel, Le Nouvel KLCC features an artful use of glass and lush greenery which lends its twin towers a modern, magnificent stance amidst its neighbouring skyscrapers. Complementing the property's stunning façade are a host of internationally renowned interior designers including Hervé

Descottes (lighting), Patrick Blanc (landscaping) and Koichiro Ikebuchi (interior design).

Interior fittings have also been selected with care to ensure comfort, privacy and luxury; each unit is endowed with unique details and bespoke design features. There are only 195 units across both towers—Tower 1 units, with their refined elegance and spaciousness, appeal to modern families; while Tower 2, with smaller units, is designed with jetsetters in mind. Both towers are connected by a pool deck on Level 7 and a Sky Bridge on Level 34. Selected units in Tower 2—fully furnished and in move-in condition—are also available for preview.

At the end of the day, coming home to an oasis of comfort in the heart of the city is one of the ultimate luxuries any city dweller can ask for. With Le Nouvel KLCC, this possibility will become a reality. ■
